Economic Outlook

The cedi is expected to hold its ground as the year closes. IMF and World Bank's disbursements are expected to support the cedi against the major trading currencies. Short-term Treasury yields have proven to be sticky downwards, and we expect this to continue post elections until the year closes.

The performance data shown represents past performance, which is no Guarantee of future investment results. Investment returns and principal value may fluctuate. Current performance may be lower or higher than what is shown.

Investment Objective

The Fidelity Balanced Trust ("The Trust") is an open-ended Unit Trust that will invest primarily in Equity Securities and Fixed Income Securities. The Trust has an objective of preserving and enhancing unit holders' wealth to meet medium to long term financial goals while at the same time creating liquidity to meet immediate needs of unit holders.

Portfolio Strategy

The Unit Trust invests in a suitable mix of equities and fixed income securities to achieve its investment objective. The mix may be varied periodically as the Manager consistently looks out for lucrative opportunities in different asset classes, based on the macroeconomic environment and the market cycle. Additionally, the Trust invests in assets that provide a hedge against Cedi depreciation, enhancing its resilience to currency fluctuations.
